

# CARBON MONOXIDE POISONING are you aware?

## Don't be the weak link in the chain

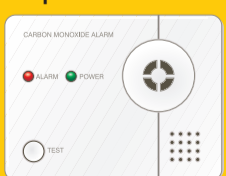

Carbon monoxide (CO) is a colourless, odourless highly toxic gas that is produced by the incomplete combustion of any hydrocarbon fuel e.g. coal, charcoal, wood, oil, petrol, diesel, natural gas and liquid petroleum gas (LPG).

Make sure you protect the ones you love by having all your hydrocarbon fuel appliances (cookers, boilers, fires and heaters) serviced and your chimney swept every year.

For fuel specific information contact:

- **National Grid** phone: 0800 111 999
- **Gas Safe Register** (gas) phone: 0800 408 5500
- **HETAS Ltd** (biomass and solid fuel domestic heating appliances, fuels and services) phone: 01242 681270
- **OFTEC** (oil) phone: 0845 658 5080
- **APICS** (Association of Professional and Independent Chimney Sweeps) phone: 0845 604 4327
- **NACs** (National Association of Chimney Sweeps) phone: 01785 811732

For your extra piece of mind fit a carbon monoxide alarm in the correct place. (Download the guide from our website.)

CO-Awareness supports victims, their families and friends poisoned by Carbon Monoxide (CO) while trying to raise awareness among health professionals and the general public, of the dangers of CO.
